

Self isolating after I was in hospital

I was in hospital

The doctor said I do not have Coronavirus

Some people at the hospital do have Coronavirus

The doctor asked me to **self isolate** for 14 days

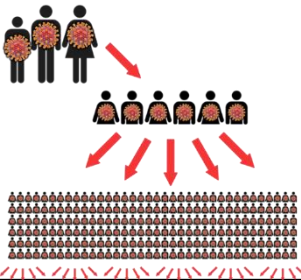

This stops Coronavirus moving to lots of people

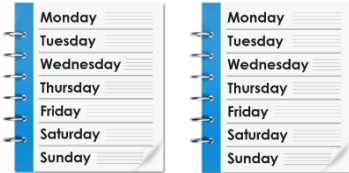

Self isolating because I was near someone who has Coronavirus

I was near someone who has Coronavirus

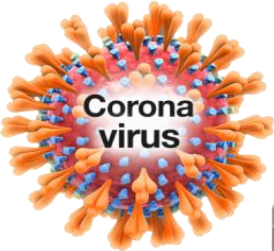

Coronavirus spreads very easily.

The doctor asked me to **self isolate** for 14 days

This stops Coronavirus moving to lots of people.

Self isolating

The doctor asked me to **Self Isolate**

This means I need to stay on my own for **14 days.**

This stops Coronavirus moving to lots of people

I will have to stay in my bedroom.

Staff will take care of me.

Staff will wear **safe clothes**

Staff will check my temperature a lot to make sure I am well

I cannot see my friends or family.

I will be on my own a lot. Being on my own is hard.

Staff will help me if I am scared or sad.

Staff will bring me food and things to do.

I can phone or video call my friends and family.
