

There's Noel-one better to welcome Minister McGrath

MINISTER of State for Disability Issues Finian McGrath (left) was graciously greeted by service user Noel Brady when he visited Coolock recently, where the minister was visiting one of St Michael's House training centres. Noel was one of the many people who gave Minister McGrath a warm welcome to the Castle Day Services facility, where the minister learned first-hand about how the facility trains, supports and educates 41 adults with intellectual disabilities.
