

St. Michael's House Home Supports - March 2020

Top tips for reading easy-read Coronavirus stories with children:

- Read the story slowly and point out the pictures
- Use natural gestures and/or Lámh to help understanding
- You will have to read the story many times to support your child's understanding of what the story is about
- Don't read all the stories at once
- Allow your child to look through the stories themselves
- Some parts may not apply to your family, so you can leave these parts out (e.g. don't read that part, cover it or cross it out)
