

The virus

It's wrong, so very wrong
Being stuck in the house,
Just washing your hands
with a head full of sneezes
and a handful of coughs

But there's a new type of fashion
It's called making space
for each other.
It's all about measuring lines,
safety zones, and keeping
your distance....

There are the Garda checks and balances
with badges been shown
The new going out is just staying at home
It's the bingo, the gardening and all types
of baking

This extended holiday is called cocooning
It's full of lazy days, sleep ons,
and phoning a friend
There's a new type of hero and it's called staying
at home
